

DSM-CS003 CABLE SEAL

The high-quality **DIO DSM-CS003** is a 1.8mm diameter adjustable length cable seal. The locking mechanism is protected with a high-impact ABS plastic and the cable is manufactured from galvanized steel. The cable has a welded tip for ease of locking and should the cable be cut it unravels making it impossible to re-lock the seal again without showing obvious signs of tampering. The seal requires cutters for removal.

Recommended Applications

Trucks, Railcars, Drums, trailers, valves and Bulk Tankers.

Cable Diameter

1.8mm

Dimensions

Refer to Figure: 2

Material

Body - High-impact ABS plastic
Cable - Non-Preformed Galvanized Steel

Marking

Laser or Foil marking
Consecutively numbered as standard
Optional Customer Name/Logo

Packaging

Standard Packaging (30cm wire length) 100 seals bag and 10 bags/carton (1000 seals)

Available Cable Lengths

20cm - 400cm

Standard Colours

Blue, Green, Yellow and white. Other colours may be available on request.

Average Tensile Strengths

240kg
