

DSP-F001 PLASTIC FIXED LENGTH SEAL

The **DIO DSP-F001** Seal is manufactured with a flexible polypropylene body and a durable acetyl insert. It has a 20cm fixed length and 8mm strap width. The average breaking strength is 25kg. Standard consecutive numbers are marked with laser or foil and these are ideal to secure vehicle doors, fire doors, Airline cargo, containers, and plantations because the acetyl insert well endures both the boiling and freezing conditions
